

NATIONAL FERAL PIG ACTION PLAN

National Stakeholder Survey – List of Questions

LAND MANAGERS	
1	Please identify the state/territory in which you reside
2	Please identify your region/locality within your state/territory e.g. Eyre Peninsula SA, Cape York QLD, Central West NSW
3	<p>Can you please advise where your interest/contribution/management lies in dealing with feral pigs?</p> <ul style="list-style-type: none"> • Primary producer • Community/biosecurity group • Indigenous organisations, Land Councils etc. • Conservation/environmental management • Local/State/National Government agency • Industry organisation • NRM organisation • Vertebrate pest management providers • Professional aerial/ground shooter • Recreational hunter (with dogs) • Recreational hunter (without dogs) • Other (please specify)
4	<p>Please identify the enterprise(s) on your property:</p> <ul style="list-style-type: none"> • Beef cattle - extensive • Beef cattle - feedlot • Cotton • Grain production* (please describe crop type(s) in 'Other' comment box below) • Horticultural crops* (please describe crop type(s) in 'Other' comment box below) • Sheep - meat • Sheep - wool • Pigs • Poultry • Goats • Sugarcane • Other* (please specify)
5	<p>Of the enterprise(s) on your property, which ones are affected by feral pigs?</p> <ul style="list-style-type: none"> • Beef cattle - extensive • Beef cattle - feedlot • Cotton • Grain production* (please describe crop type(s) in 'Other' comment box below) • Horticultural crops* (please describe crop type(s) in 'Other' comment box below) • Sheep - meat

	<ul style="list-style-type: none"> • Sheep - wool • Pigs • Poultry • Goats • Sugarcane • Other* (please specify)
6	<p>What problems are feral pigs creating on land that you are managing and/or those of your neighbours?</p> <ul style="list-style-type: none"> • Damage to fencing and/or infrastructure • Land degradation e.g. erosion, dam/creek/river bed damage, rooting, wallowing • Crop and/or pasture damage • Livestock predation • Biosecurity threat/disease transmission • Habitat destruction • Loss of native animals • Loss of native vegetation • Decreased water quality • Other (please specify)
7	<p>Have you estimated costs from the activity of feral pigs in your area?</p> <ul style="list-style-type: none"> • Yes • No • Not Applicable
8	<p>Can you please provide an estimate of annual costs (\$AUD) and describe the type of costs involved? e.g. bait, labour, time</p>
9	<p>What approaches have you been using to manage feral pigs and in what order are these management practices most often used? (e.g. 1 = aerial shooting; followed by 2 = trapping; and 3 = ground shooting)</p> <ul style="list-style-type: none"> • Ground baiting • Aerial baiting • Ground shooting (with dogs) • Ground shooting (without dogs) • Aerial shooting • Trapping • Surveillance (e.g. cameras, drones) • Exclusion/barrier fencing
10	<p>Are there any other approaches you have been using to manage feral pigs? (please describe)</p>
11	<p>How could the effectiveness of any of these methods be improved?</p>
12	<p>Is free feeding done as part of your control program? If so, what feed type is used and how long do you feed it for?</p>
13	<p>What has not worked well in your past efforts? What do you think the reasons for this could be?</p>
14	<p>Have you had to change your business, management or production practices on your property/ies because of feral pigs in your area over the past five years?</p> <ul style="list-style-type: none"> • Yes • No • Not Applicable
15	<p>Please explain how you have had to change your business, management or production practices on your property/ies because of feral pigs in your area over the past five years</p>
16	<p>What training programs and/or other resources are needed to better support your feral pig control program? Do you experience issues with accessing training and/or other resources?</p>

17	Do you record/collect data regarding feral pigs? <ul style="list-style-type: none"> • Yes • No • Not Applicable
18	What data do you record/collect regarding feral pigs? (E.g. number of pigs seen, number of pigs killed, number trapped, water quality improvements, less predation of stock, improved crop yields, increased lamb marking percentage, soil degradation/improvement, etc.), and what do you do with the data that is collected?
19	What is needed to help you with improving the effectiveness of control programs to reduce the threats from feral pigs? e.g. data, information, technology, funding
20	What does/would motivate you to work with others to manage feral pigs? What are your suggestions to the Action Plan to help maintain this interest and activity over time?
21	What does the new National Feral Pig Action Plan need to address in your view?
22	What are the key outcomes that you are looking for from the Action Plan? i.e. what does success look like to you? How can these outcomes be accomplished?
23	Any other comments:
OTHER STAKHOLDERS/ORGANISATIONS	
24	What does the new National Feral Pig Action Plan need to address in your view?
25	What motivates landholders to work together to manage feral pigs? What is needed to maintain their interest and activity over time?
26	What new information or data is needed to help landholders with improving their management approaches to reduce the impacts and risks from feral pigs? How do you think this could be addressed and applied?
27	How can we ensure that the general public is supportive of the use of humane control methods to reduce threats from feral pigs?
28	Any other comments:
